OF
DIPLOMA IN

Department of Artificial Intelligence & Machine Learning

SUBMITTED TO

MAHARASHTRA STATE BOARD OF TECHNICAL EDUCATION, MUMBAI

NAME OF STUDENT (FULL NAME)	ENROLLMENT NO
HAWALE SHREYASH DATTU	225P10949
JAIN PRATHA SUDARSHAN	225P10853
KAMBLE SHUBHRA RAVINDRA	225P10506
KAMBLE SOHAM SANTOSH	225P10647

ZES'S Zeal Polytechnic Pune

ACADEMIC YEAR 2025-26

MAHARASHTRA STATE BOARD OF TECHNICAL EDUCATION

Certificate

This is to certify that Mr. HAWALE SHREYASH DATTU Roll No 13 of Third Semester of **Diploma in Artificial Intelligence & Machine Learning** of Institute, Zeal Education Society's Zeal Polytechnic, Pune (Institute Code: 0988) has completed the **Micro Project** satisfactorily in Subject WEB PAGE DESIGNING **(312004)** for the Academic Year 2025-2026 as prescribed in the curriculum.

Place: Pune

Enrollment No: 225P10949

Date: ……

Exam. Seat No: ……

Subject Teacher **Head of the Department** **Principal**

MAHARASHTRA STATE BOARD OF TECHNICAL EDUCATION

Certificate

This is to certify that Ms. JAIN PRATHA SUDARSHAN Roll No 14 of Third Semester of **Diploma in Artificial Intelligence & Machine Learning** of Institute, Zeal Education Society's Zeal Polytechnic, Pune (Institute Code: 0988) has completed the **Micro Project** satisfactorily in Subject WEB PAGE DESIGNING **(312004)** for the Academic Year 2025-2026 as prescribed in the curriculum.

Place: Pune

Enrollment No: **225P10853**

Date: ……

Exam. Seat No: ……

Subject Teacher **Head of the Department** **Principal**

MAHARASHTRA STATE BOARD OF TECHNICAL EDUCATION

Certificate

This is to certify that Ms. KAMBLE SHUBHRA RAVINDRA Roll No 15 of Third Semester of **Diploma in Artificial Intelligence & Machine Learning** of Institute, Zeal Education Society's Zeal Polytechnic, Pune (Institute Code: 0988) has completed the **Micro Project** satisfactorily in Subject WEB PAGE DESIGNING **(312004)** for the Academic Year 2025-2026 as prescribed in the curriculum.

Place: Pune

Enrollment No: **225P10506**

Date: ……

Exam. Seat No: ……

Subject Teacher **Head of the Department** **Principal**

MAHARASHTRA STATE BOARD OF TECHNICAL EDUCATION

Certificate

This is to certify that Mr. KAMBLE SOHAM SANTOSH Roll No 16 of Third Semester of **Diploma in Artificial Intelligence & Machine Learning** of Institute, Zeal Education Society's Zeal Polytechnic, Pune (Institute Code: 0988) has completed the **Micro Project** satisfactorily in Subject WEB PAGE DESIGNING **(312004)** for the Academic Year 2025-2026 as prescribed in the curriculum.

Place: ……. Enrollment No: **225P10647**

Date: …… Exam. Seat No: ……

Subject Teacher **Head of the Department** **Principal**

Simple Greeting Card

Key topics:- Background color + text styles

CODE

```
<!DOCTYPE html>
<html>
<head>
<title>Greeting Card</title>
</head>

<body style="background-color:
rgb(0, 229, 255); text-align:
center;">

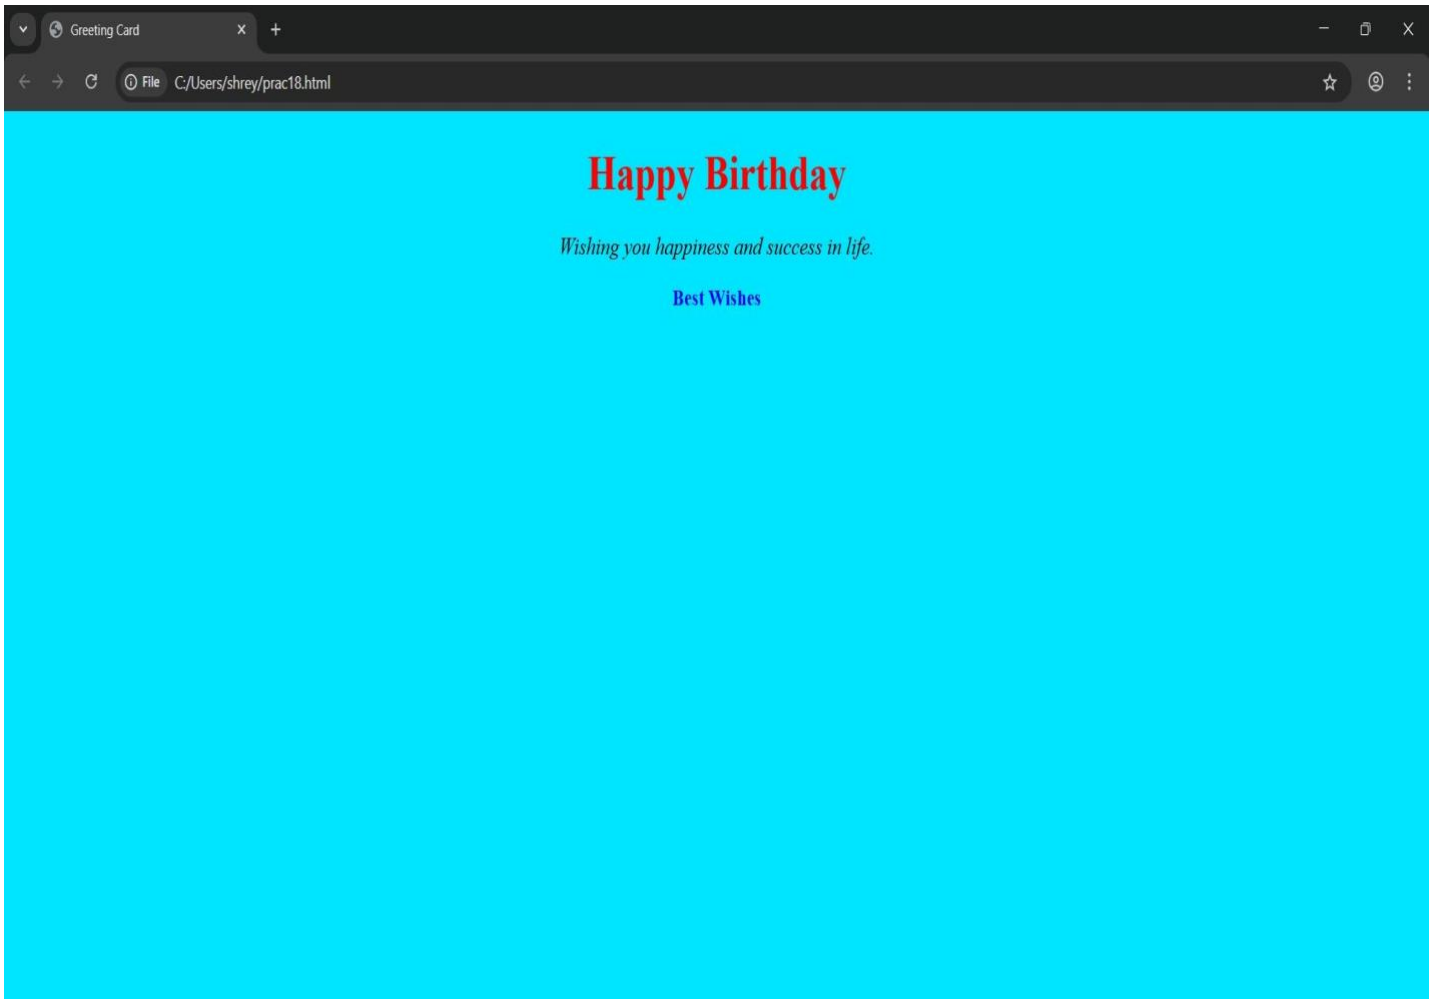
<h1 style="color: red; font-size:
40px;">
Happy Birthday
</h1>
```

```
<p style="font-style: italic; font-size:
20px;">
Wishing you happiness and success
in life.
</p>

<h3 style="color: blue;">
Best Wishes
</h3>

</body>
</html>
```

OUTPUT



Greeting Card
File
C:/Users/shrey/prac18.html
Happy Birthday
Wishing you happiness and success in life.
Best Wishes

OBJECTIVE

To design a simple greeting card using **HTML** by applying **background color and basic text styles** such as font size, color, and italic formatting. The aim is to understand the use of basic HTML tags and styling to create a visually attractive greeting message. 🎨💻

PROBLEM DEFINITION

To create a simple Greeting Card web page using HTML that displays a greeting message with an attractive background color and different text styles such as font size, color, and italic formatting. The webpage should present the message clearly and in a visually appealing manner using basic HTML tags. 🎨💻

INTRODUCATION

- **HTML (HyperText Markup Language) is the basic language used to create web pages. It allows us to display text, images, and other elements on a webpage. By using simple HTML tags and styles, we can design attractive pages.**
- **In this program, a simple greeting card is created using HTML. The card uses a background color and different text styles such as font size, color, and italic formatting to make the greeting message look attractive. This helps beginners understand how basic HTML elements can be used to design simple webpages. 🎨💻**

HARDWARE/SOFTWARE/TOOLS USED

Hardware:

- **Computer / Laptop**
- **Keyboard**
- **Mouse**

Software:

- **Web Browser (such as Google Chrome, Mozilla Firefox, or Microsoft Edge)**

Tools Used:

- **Text Editor (such as Notepad or Visual Studio Code) for writing the HTML code.** 💻

STEP-BY-STEP METHODOLOGY

- **Start the system and open a text editor such as Notepad or VS code editor.**
- **Create a new HTML file and save it with the extension .html (for example: greetingcard.html).**
- **Write the basic HTML structure using <html>, <head>, and <title> tags.**
- **Add the <body> section and set a background color using the style attribute.**
- **Insert the greeting title using the <h1> tag and apply text color and font size.**
- **Add a greeting message using the <p> tag and apply italic style for better appearance.**
- **Add the closing text such as “Best Wishes” using the <h3> tag.**
- **Save the HTML file after completing the code.**
- **Open the file in a web browser to view the greeting card output.**
- **Verify the design to ensure the background color and text styles appear correctly.** 🎨💻

OBSERVATIONS & RESULTS

Observations:

- **The HTML file was successfully created and executed in a web browser.**
- **The background color was displayed as specified in the code.**
- **The greeting title appeared in large font size and colored text.**
- **The message text was displayed in italic style.**
- **The closing text appeared properly below the message.**

Results:

- **The greeting card web page was successfully designed using HTML.**
- **The program correctly demonstrated the use of background color and text styling to create a simple and attractive greeting card.** 🎨💻

CONCLUSION

The greeting card was successfully created using HTML with a background color and different text styles. This program helped in understanding the use of basic HTML tags and styling to design a simple and attractive web page. It demonstrates how HTML can be used to create visually appealing greeting messages on a web browser. 🎨💻
